

VM Penetration Test Software (Kali Linux At Least 8 penetrations)

Assignment Guidance

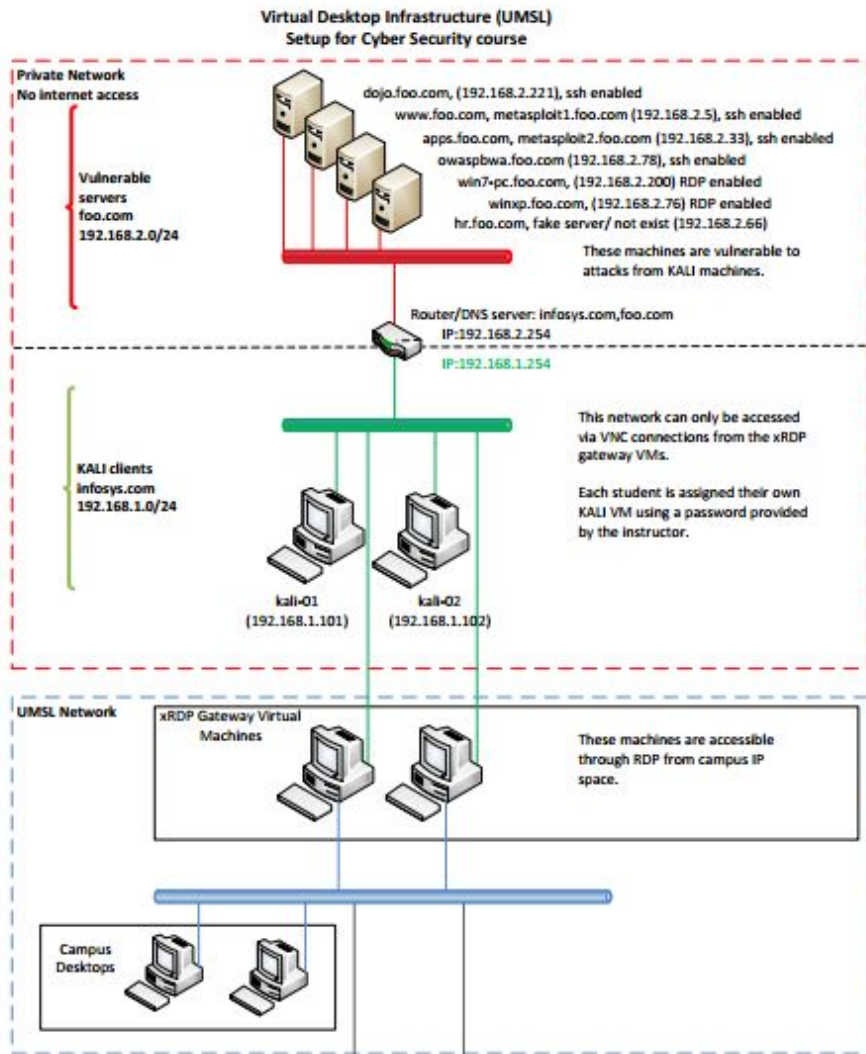

Tasks

Run at least 4 successful penetrations using Kali Linux. Capture these in a presentation and be prepared to demonstrate at least 2 live in class.

UMSL Virtual Lab

You can use the UMSL virtual lab to conduct your penetrations.

Hack This Site is a free, safe and legal training ground for hackers to test and expand their hacking skills. More than just another hacker wargames site, we are a living, breathing community with many active projects in development, with a vast selection of hacking articles and a huge forum where users can discuss hacking, network security, and just about everything. Tune in to the hacker underground and get involved with the project.

First timers should read the [HTS Project Guide](#) and [create an account](#) to get started. All users are also required to read and adhere to our [Legal Disclaimer](#).

Get involved on our IRC server: [irc.hackthissite.org](#) SSL port 7000 #hackthissite or our [web forums](#).

Top 5 Websites to Master Hacking With Kali Linux : For Beginners

By [Shashwat Chaudhary](#) · October 11, 2016 · [best 5, hacking, kali, top 5, tutorials](#)

Despite writing so many tutorials on hacking with Kali Linux, I often get stuck and have to consult other resources. My blog has a lot of things but since I myself don't know everything,
